County ASC Office Is Now In New Home

BY ROBERT RUDOPH

New location of the county ASC office is 206 E. 13th Street, Benton, just one block South of the old location.

All equipment and supplies of the ASC office were moved to this new location on July 29 and the first day's business began Aug. 1. All farmers and others interested in the ASC programs are invited to come in and see the new office. We think the location is excellent for all concerned.

All farmers who plan to do some fall seedling should have applications in for ACP assistance, if eligible.

The county committee is very much pleased that a large number have applied for cost-share on conservation practices this year that have not received any cost-share for 3 or 4 years. They feel, however, that there are many more who would be eligible for Cost-share but have not requested a practice, and urge that all who have not received

cost-share for a conservation practice contact the office and determine if eligible.

All farmers who plan to plant trees this fall are urged to place orders now and file application, if eligible, for ACP cost-share. Trees available will be pine and blacklocust.

All tobacco and cotton has been measured for this 1960 season. If your tobacco or cotton has not been measured, it must be measured before it can be sold. Please notify this office at once.

A small delegation of Sharpe residents appeared at the City Council meeting in Benton Monday night and sought information about getting natural gas lines run to the Sharpe community.

Curtis Holmes, local manager of the Union Gas Co., informed the delegation that he had not been able to get a commitment from Union Gas officials as to whether the company will extend its Benton service to Sharpe.

The Sharpe group, for whom Lake Riley was spokesman, said they had collected deposits from residents and some of the residents were anxious to get gas service this winter.

Holmes explained that Union Gas is building several large projects, and probably would place those projects ahead of the smaller Sharpe project. He also said he would notify the Sharpe residents as soon as he gets a definite answer from company officials.

Stubblefield To Attend Farm Policy Session

Congressman Frank A. Stubblefield has announced that he had accepted an invitation from Senators Kennedy and Johnson to attend a meeting of the National Policy Committee on Agriculture Progress in Des Moines, Iowa, August 21. Iowa Governor Herschel Loveless is chairman of the group.

The purpose of the meeting is to get an up-to-date report on the present agricultural situation and to lay plans for carrying out Democratic farm policies after the election.

Stubblefield, who is a member of the House Agriculture Committee, said he would recommend that the group concentrate on plans for prompt action after Congress convenes next January.

He said, "I have high hopes that we can then reverse the pattern of increasing surpluses and declining farm prices. I base this on the confident expectation that, beginning next January, the Executive Department and,

especially, the new Secretary of Agriculture will be working with Congress to enact constructive programs rather than opposing and vetoing them."

Waterjet 'Elevator' Gives Baby Salmon A Big Lift

This is a story about smolts, or baby salmon, who once tried to go to sea the hard way but now get there more directly with the aid of a waterjet 'elevator' provided by a Pacific Coast newspaper mill at a cost of \$90,000.

The details of this unusual arrangement, one of many measures taken by paper producers to help conserve wild life and natural resources, were reported in Newspaper Facts, published by the Newspaper Information Committee which is composed of a representative group of Canadian newspaper producers. Smolts, as sportsmen and nature lovers are likely to know, are spawned in inland waters by husky parents who have fought their way upstream from the sea. The fingerlings spend their first year of life in the lakes. Then instinct points them downstream to find the ocean where they will grow to maturity.

At this point, the newspaper mill begins to have trouble unless it takes steps. Making newspaper is an aqueous business. The newspaper company in question gets its water—30,000 gallons per minute—from a lake six miles from the mill. Until recently, the water line originated in a deep well in the lake. Flow of water to the intake was misconstructed by the baby salmon. They thought they had found the start of a stream going down to the sea and although they were right in a way, it was nevertheless a mistake. Entering the well by the thousands, they were kept out of the pipeline by screens. But the velocity of the inflowing water—about half a foot per second—and turbulent water action, churned them into a salmon salad. Fisheries officials and company engineers worked out a new system. They drove sheet piling into the lake bottom and constructed a flume-like arrangement to channel water to the intake at a more sedate pace.

At an appropriate point, wire screens, revolving vertically, strain out the baby fish and carry them up to a shower of water. The waterjets, in elevator-fashion, flush them uninjured back into the lake. At this point, if the smolts are at all smart, they will turn about and find a better way to the sea where they can grow up to be cohoes, spring, dog, or chum salmon, as the case may be. If they want to go back for another ride on the revolving screens, that's their affair and it does them no harm.

Officers Elected By First Baptist Church Circle 1

Circle 1 of Benton's First Baptist Church, 10th and Main Sts., met Monday night, Aug. 15 at the home of Mrs. Lula Wallace.

Officers picked by the nominating committee were elected as follows:

Mrs. Mary Brandon, chairman; Mrs. Wallace, co-chairman; Miss Georgia Brandon, program; Mrs. Della Eley, secretary; Mrs. Eunice Lane, treasurer; Mrs. Annie Nelson, committee on missions; Mrs. Helen Morgan, mission study.

Mrs. Clemmie Park, Mrs. Rochie Howard and Mrs. Rudy Cox, orphans home; Mrs. Anna Brandon, hospital; Mrs. Reba Powell, prayer; Mrs. Helen Morgan, publicity; Mrs. Wallace, Mrs. Ida Eger and Mrs. Pearl Hatcher, social committee.

The lesson on "Tithing" was conducted by Ruby Wade and an interesting discussion followed. A Christmas box in August was planned for Columbia, S. C. and also a gift of \$40 was voted for the Pinecrest Orphans Home for linens. Delicious refreshments were served to the following ladies:

Mmes. Nine Thompson, Della Eley, Reba Powell, Clemmie Park, Annie Nelson, Mary Brandon, Anna Brandon, Helen Morgan, Misses Ruby Wade and Georgia Brandon, the hostess, Mrs. Wallace.

The circle also had met on Aug. 10, at which time the nominating committee presented the slate of officers that later was elected.

Carolyn Hicks Is Married

Carolyn Hicks, daughter of Mr. and Mrs. William L. Hicks of Atlanta, Ga., was married to Gerald Arthur Burroughs, son of Mr. and Mrs. Francis G. Burroughs of Atlanta, Ga., at the home of the bride's parents, the Hicks family, on Sunday afternoon, Aug. 14, 1960.

The gown was a full length imported white chantilly lace over bridal satin designed with a fitted bodice with bateau neckline, and long sleeves that tapered to calla lily points over the wrists and fastened with tiny self-covered buttons. The bodice extended to a V below the natural waistline and fastened in the back with self-covered buttons. The three tiered bouffant skirt featured a scalloped panel in center front.

Her finger-top veil of silk french illusion fell from a crown of seed pearls and pearlized leaves over stiffened lace. She carried a bridal bouquet of gardenias with sprays of tiny pom-pom chrysanthemums. Miss Auline Nix of Russellville, Ala., was maid of honor. Bridesmaids were Mrs. James Grove of Nashville, Miss Sandra Johnson and Miss Patricia Hatcher of Benton. Their identically styled street-length gowns were of dawn pink organza over taffeta. They wore matching double bows attached to headbands and carried colonial bouquets of pink chrysanthemums and red roses. Ruth Ann Moffield was flower girl. Her dress and accessories were styled like those of the bridesmaids. Scott Hendrickson was ring-bearer. James Grove of Nashville was best man. Groomsmen were Oliver Hunt Jr. of Carbondale, Ill., and David Martin of Dunbar-

W. Va. Ushers were Donald Hicks of Murray and Bursen Dobbs of Raleighville, Ala.

Following the wedding the bride's parents entertained with a reception in the home economics building of Benton High School. Receiving with the bride and groom were the bride's parents, the groom's parents, the bridesmaids, the flower girl, and the ringbearer.

Assisting with the serving were Miss June Story of Nashville, Tenn.; Mrs. Charlie Howard and Mrs. Don Hicks of Murray; and Mrs. Don Jackson. Others assisting with the reception were Mrs. Ray Moffield, Mrs. Bob Camp, Mrs. Paul Watkins, and Mrs. Jack Johnson.

Immediately following the reception the couple left for a Southern wedding trip. For traveling the bride wore a classic shirtwaist of beige pima mist with matching accessories and the gardenias from her bridal bouquet.

Out-of-town guests attending the wedding were Mr. and Mrs. Ollie Hunt Sr., of Nokomis, Ill.; Mr. and Mrs. Ollie Hunt Jr., Carbondale, Ill.; Mr. and Mrs. Sam L. Weaver and daughters, Wanda and Mary, Centralia, Ill.; Mr. and Mrs. L. A. Weaver and daughters, Sue and Joyce, Odell, Ill.; Mr. and Mrs. P. G. Burkett and daughter, Nancy, Atlanta, Ga.; Mrs. C. E. You pay **\$1.10** tax on 10 gallons of gasoline

Gasoline taxes up 51% in ten years

Federal tax to 4 cents a gallon, in addition to the State tax of 7 cents a gallon.

Looking at it another way, in the last ten years gasoline taxes have skyrocketed 51%—yet the price of gasoline itself has risen only 5.5% during the same period. \$78 a year for gasoline taxes! Gallon by gallon, these taxes add up to a lot of money. Each year the average motor vehicle owner in this state pays \$78 for gasoline taxes alone. That's just a few dollars less than the average week's pay for most people!

Your gasoline retailer—who must collect these taxes from you—feels that gasoline taxes are much too high. More and more, thinking people are coming to agree. What do you think?

HIGHWAYS AND GASOLINE TAXES

Your gasoline retailer, naturally, favors construction of the roads that the motoring public needs. He believes in fair and reasonable taxation for this purpose but feels that taxes on gasoline have now reached unreasonably high levels. He also believes that all special taxes on the motorist should be used only for highway purposes. Yet last year, out of every automobile tax dollar collected by the Federal Government from highway users, more than 40 cents went for non-highway purposes. If these automotive tax revenues were dedicated for highway purposes, there would be no need for the latest increase in the federal gasoline tax.

Presented in the public interest by the Gasoline Tax Education Committee 575 Lexington Avenue New York, New York

The gasoline you buy is taxed too HIGH! Your Gasoline Dealer

Methodists Announce Leaders For Revival

Members of the First Methodist Church of Benton, headed by George Erickson general chairman, Harvey Selwitz, co-chairman, and 12 committee heads are mobilizing their resources for the Methodist Revival which begins Sunday, Aug. 28, at 10:45 a. m. Rev. William James of Madisonville will be the guest minister.

For the last two Sundays, "Minute Men" have spoken in the Sunday morning services about the coming revival program. Darrison Werner spoke Aug. 14. Their topic was: "Why I plan to attend the Revival."

Richard Rudolph, who heads the assimilation committee, is readying the church for following up those who make decisions. This will include organizing the training program for new members as well as making provisions for continuing prayer and guest groups after the revival is over.

Earl St. Marie, chairman of the attendance committee, has arranged for Mrs. H. B. Holland to speak as a "Minute Man" next Sunday, and for Mrs. Alvin Austin to make a similar appearance on the first Sunday of the revival. A large number of telephone hosts and hostesses will be contacting members and friends of the church, while several "Pew Captains" are being readied each night to bring their friends and neighbors to the revival.

Curt Phillips, chairman of the finance committee, will supervise the drawing up of the budget and use the nightly offerings for defraying the local expenses.

The Monday night offering will be received for the General Boards of Evangelism and Education for their work in helping plan and promote the simultaneous endeavor. The Wednesday offering will go to cover District-wide expenses of publicity and promotion. Thursday and Friday nights offering will be taken as an appreciation to Rev. William James for his services.

Mrs. Wade Dappert, who directs activities of the group evangelism committee, is arranging for some 13 or 20 neighborhood prayer groups daily in homes throughout the community during the revival. Coffee-break prayer groups are being arranged for business people. A 24-hour prayer vigil will be held at the church from Thursday noon, Aug. 25, to Friday noon, Aug. 26. A warm welcome to the First Methodist Church will be extended by the host and hostesses

An opportunity for fellowship after the first evening service of the revival will be provided by the reception committee, headed by Mrs. Earl Osborne. At this time, local people will be able to meet the visiting pastor.

A special district-wide youth rally on the Saturday night before the revival begins is being promoted by Miss Rosalind Nelson, chairman of the Youth committee. During the week of the revival the youth will also conduct their own prayer groups and participate in the program of visitation evangelism.

Bro. Alexander delivered one of his best sermons Sunday morning at Church Grove. Mrs. Woodrow Putrell gave a wonderful Sunday School lesson for the adult class.

The gospel singing which is held every third Saturday night will be held next Saturday night, as usual. All singers and quartets are especially invited.

I didn't get to attend the County Fair this time, and I had a beautiful pot flower that I wanted to enter in the flower contest.

The funeral of Mr. Albert Stokes was held at Church Grove last Friday at 2 p. m. Bro. Alexander and Bro. Wallace Green officiated. Collier Funeral Home was in charge of arrangements. Burial was in Haynes Cemetery.

come of all the Jaybirds. I haven't seen one this year. They usually build nests in our sugar trees and play around here all summer. Maybe Uncle Ned of Dogtown call tell me what happened to them.

My sympathies go to Mrs. Paul Darnall and children, who lost their husband and father.

Thought for the week—As I by faith repent and forgive others, God will grant me forgiveness and use me in his service.

Mrs. Elsie Chandler Warren spent Sunday in the home of Mr. and Mrs. Will Gay on Route 5.

cars love SHELL

Why do so many of the liveliest cars on the road use a Shell gasoline with TCP? One clue is that Shell is America's largest supplier of commercial aviation fuels (we have been for 10 years). And many of Shell's aviation developments have been carried over into Shell gasolines. TCP* additive is just one of these developments. TCP neutralizes the combustion deposits which make engines run rough. Why not discover how smooth your car can run—how far you can go on a gallon? Your Shell dealer is the man to see.

Public Health Importance DISEASE

Most household insects travel between likely sources of human disease germs (such as privies sewers and garbage) and food destined for human consumption.

They carry disease germs on their feet, body hairs, mouth-parts and in the contents of their intestinal tracts. Human diseases transmitted mechanically by household insects include TYPHOID, BACILLARY DYSENTERY, AMEBIC DYSENTERY, DIARRHEAS, CHOLERA, RAT TAPEWORM, DEWARF TAPEWORM and TULAREMIA.

BIOLOGICAL TRANSMISSION OF DISEASE
In some cases the insect plays an essential part in the life cycle of the parasite and biological transmission occurs. Human diseases transmitted biologically by household insects include PLAGUE, MURINE TYPHUS, RICKETTSIAL POT, RELAPSING FEVER, CHAGAS DISEASE and DOG TAPEWORM.

COCKROACHES
Cockroaches are ancient creatures which were probably the most abundant of all insects seventy or eighty million years ago. They have adapted themselves to the abode of man and are potential vectors of disease. They are becoming a more difficult problem in our homes and restaurants. Cockroaches have been reported nibbling on the eyelashes, finger nails and toe nails of sleeping children. They impart an unsavory odor and taste into food they infest.

They carry the organisms causing enteric diseases from sewers and garbage cans to the food of man. The American cockroach (waterbug) is especially dangerous. Many disease organisms remain viable when passed through their digestive tracts and others may be transported on their mouthparts, legs and bodies. Cholera and salmonellosis appear to be the most common disease transmitted in this way. Cockroaches are thought to be possible vectors of leprosy and have been considered vectors of poliomyelitis.
